# Specialities

Providing comprehensive, state-of-the-art Teleradiology services our clients need.

01

## General Reporting

Our General Reporting service provides reliable and routine interpretations for X-Ray, CT, MRI, and Mammography scans. With a highly experienced radiology panel, we ensure that every report is delivered with accuracy, consistency, and clarity, supporting physicians in their everyday clinical decisions

02

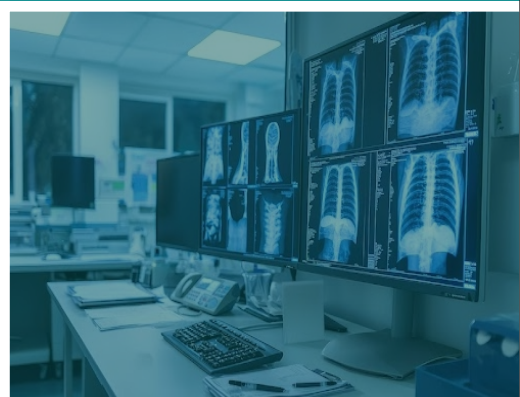

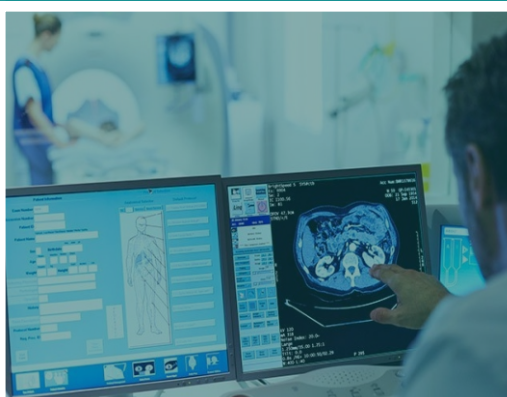

## CT Second Opinion

Our CT Second Opinion service is designed for cases where an additional expert perspective is crucial for confirmation or treatment planning.

03

## Out-of-Hours Reporting

Our Out-of-Hours Reporting service ensures that radiology support is never restricted by time. Healthcare institutions often face challenges during evenings, weekends, or holidays when in-house staff availability is limited.

**Wave Technical Medical**  
Services Pvt. Ltd.

# Specialities

Providing comprehensive, state-of-the-art Teleradiology services our clients need.

04

## Night Reporting

Our Night Reporting service addresses one of the most common pain points in healthcare institutions—the lack of radiology coverage at night. With a dedicated night reporting team, we ensure that emergency cases, trauma imaging, and urgent diagnostic scans are reported without delay, allowing physicians to act promptly.

05

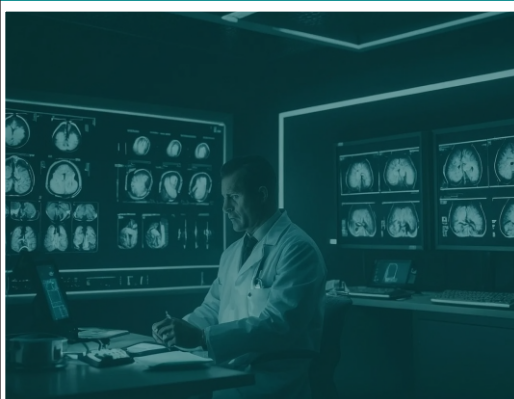

## Sub-Specialty Reporting

We provide sub-specialty reporting services in Neurology and Oncology, handled exclusively by radiologists with extensive expertise in these fields.

06

## Sub-Specialist Opinion from London, UK

We bring the advantage of global expertise to our clients through our sub-specialist opinion services from London, UK.
